# THE ROLE OF QUANTUM MECHANICS IN MEDICINE

## AN INTRODUCTORY SESSION

By Dr. Yoshiro Fujii

In this Introductory lecture, Dr. Fujii will describe certain “phenomena” as changes in his patient’s bodily symptoms, that happened mostly unexpectedly following some dental intervention, in his daily clinical practice and he concluded that oral treatments influence the functions of the human brain.

In this webinar series, Dr. Fujii will emphasise on how quantum mechanics can affect bodily function. Evidence indicates that some oral symptoms may appear because of the pathological waves emitted by the afflicted area, and dental intervention causes an interference or interception in the transmission of these pathological waves.

Dr. Fujii suggests in harnessing the power of wave motion to cure people in daily dental and medical treatments and is conducting this introductory lecture to explain this phenomena in detail, and illuminate the role of Quantum Mechanics in Medicine and Dentistry.

### SCHEDULE FOR THE DAY

TIME	EVENT
21:00 - 21:15	Introduction
21:15 - 21:50	The Role of Quantum Mechanics in Medicine
21:50 - 22:00	Break
22:00 - 22:50	Discussion of Case Reports
22:50 - 23:00	Conclusion

21:00 Japan | 17:30 India | 07:00 New York | 12:00 United Kingdom

In case of any questions or concerns that may arise during the lecture, kindly email us at [oh tamgm1224@gmail.com](mailto:oh tamgm1224@gmail.com) to reach Dr.Fujii’s Secretary.

Dr. Yoshiro Fujii is the Honorary Director and Chief Dentist at Shin-Kobe Dental Clinic, Kobe, Japan.

He has completed his PhD from Aich Gakuin University. He has been an advocate of Holistic Dentistry since the inception of his practice and wants to advocate the use of his techniques in Applied Medicine.

He is an Authorization doctor of the Japan Bi-Digital O-Ring Test and a director of the Japan Society of Dental Equipment.

He has published over 30 international academic articles in English.

His profile and published articles are available at:

## Biography

1985:D.D.S. (Certified by Japanese Health Ministry).

1989: He received Koide prize. Finished graduate school, Nagoya, Japan. and Ph.D (Aich Gakuin University Graduate school, Nagoya).

2000: Dr. Fujii began to run Shin Kobe Dental Clinic (Kobe, Japan).

2009: Fellow of the international college of acupuncture and electro-therapeutics (F.I.C.A.E).

2013,2014,2015: 100 next era CEOs in Asia (Japan times).

2015: Editorial board member of British Journal of Medical Research.

2014-15: He was a chair or co-chair three times in various international congresses.

2017: Joined the Pierre Fauchard Academy as a member.

2018: Honorary Speaker at June International health conference Oxford 2018

2021:Received "Higashi-Kuninomiya International Culture Award" from the old imperial family (the General Prince Naruhiko Higashikuni)
